Malcolm Turnbull. MP.  
The Prime Minister,  
Parliament House,  
Canberra, ACT, 2600.

*Dear Prime Minister*

*We write to you, in your capacity as leader of a Liberal National government which, as we understand it, governs the nation from the viewpoint Political Right of the free enterprise, small government, private land ownership and personal freedom. We do so as concerned citizens of this Nation.*

*Unless we are mistaken, your government could not be a proponent of the widely discredited theories of Marx, as are the Labor Party and the Greens, who together constitute the majority of your political opposition.*

*We don't need to remind you that your Marxist opponents believe their dreamed of Communist Utopia can be achieved by resort to irresponsible fiscal and economic profligacy and concentration of all power and individual citizen agency in the State. They cling to this belief despite the salutary experience of the Twentieth Century in which every nation that adopted Marxism and its variants experienced the cold winds of reality in untold suffering of their peoples.*

*Why then would your government reaffirm the obnoxious Marxist inspired United Nations programme Agenda 21, first affirmed by the Hawke/Keating Socialist government, in the dead of night as it were, in 1992.*

*The baleful effect of this programme has been felt by us for a very long time as an ever stiffening intransigence on the part of government bureaucracies as they have set aside individual rights and freedoms in favor of unbidden top-down government initiatives that we now know are frequently modelled on the precepts contained in the Agenda 21 document.*

*Little more than two weeks after you assumed the mantle of Leader of our Nation, the Foreign Minister attended a session of the United Nations Organization and voted to continue the support of the Australian Nation for UN Agenda 21 until further review in the year 2030.*

*It is no comfort to know that even the Howard administration saw fit to affirm this palpably Marxist programme in the year 2000.*

*A great many of us who vote on your side of the political divide cannot understand how we could be so comprehensively sold out to the ideology of our political enemies.*

*Perhaps it is just a mistake. If that is the case then, Prime Minister, we request you act quickly to correct it.*

*An acknowledgement of this letter within 30 days would be appreciated.*

*Yours faithfully  
Macedon Ranges Land Owners Committee Incorporated*
